

Card Deck

Twelve games for a standard 52-card deck

House rules written for The Game Room. These are the common rules; plenty of tables play their own variations, so agree on any before you start.

Using the deck

Every game here uses one standard 52-card deck; leave the jokers out. Unless a game says otherwise, aces are high, the dealer shuffles and deals one card at a time clockwise starting on their left, and the deal passes to the left after each hand.

Each game has its own rules sheet: pick it from the tabs on the rules page. The rules assistant has read all of them, so you can ask it about any game here.
